Introduction

Study visits and trainings (Deliverable 3.2.) are three days events organized at program HEIs according to the proposed modules, specific typology of Urban Agriculture as well as results/guidelines/experience from Project. Six study visits with training for five participants from five HEIs will deliver 150 trainings. Study visits and training aims to equip teaching staff from partner HEIs with first-hand experience in Urban Agriculture (UA). During study visits teaching staff will visit UA sites and project at program HEIs. During that time they will practically implement UA skills and knowledge in real work surroundings, or otherwise gain first-hand experience needed for BUGI Project curriculum implementation. Partner HEIs teaching staff will work closely with program HEIs teaching staff to facilitate knowledge transfer and good practice. The emphasis will be placed on teachers training that foster interactive, problem-based learning and entrepreneurial skills through new and creative ways of teaching and learning. New methodological approaches exercised by the teachers will enable them to work independently in implementation of new curriculum and LLL programs.

Study visit assignment

The aim of the study visit and training was to equip teaching staff from partner HEIs (University Dzemal Bijedic of Mostar, University of Donja Gorica, University of Haxhi Zeka,

University of Prishtina, and University Sarajevo) with first-hand experience in UA in Slovenia with the purpose to facilitate knowledge transfer and good practice of UA to support BUGI Project curriculum implementation.

The objectives of the study visit and training were to:

- Provide state-of-the art review of UA in Slovenia, including typologies, producers motivations, engaged groups of society, including environmental aspects (soil nutrients stock, heavy metal loads, irrigation practices) and finally the economics of UA,
- To motivate and facilitate HEIs from University Dzemal Bijedic of Mostar, University of Donja Gorica, University of Haxhi Zeka, University of Prishtina, and University Sarajevo to share their innovative examples of UA,
- To engage in first-hand field visit of selected UA practices (study visit programme),
- To facilitate first-hand experience and knowledge exchange between the present HEI and between the HEI and the UA producers.
- To provide teambuilding services for a more connected BUGI project group

Study visit outcomes

During the study visit and training the participants:

- Were provided with the state-of-the-art overview of UA practices in Slovenia focusing integrated economic, environmental, social and planning aspects of UA,
- Presented their own innovative UA examples from their cities. The main challenges and possible solutions to UA were extensively discussed in a facilitated focal group, which helped set general outlines for the BUGI Project curriculum programming,
- Visited 10 UA practices. The participants were presented in depth with the production process at the UA examples. At every example we discussed business plans of UA and opportunities for engaging with the wider society. At every case study example the participants were able to taste or experience UA products.
