

THE BUGI PROJECT

Evaluation of the Study Visit in Bologna – May 2018

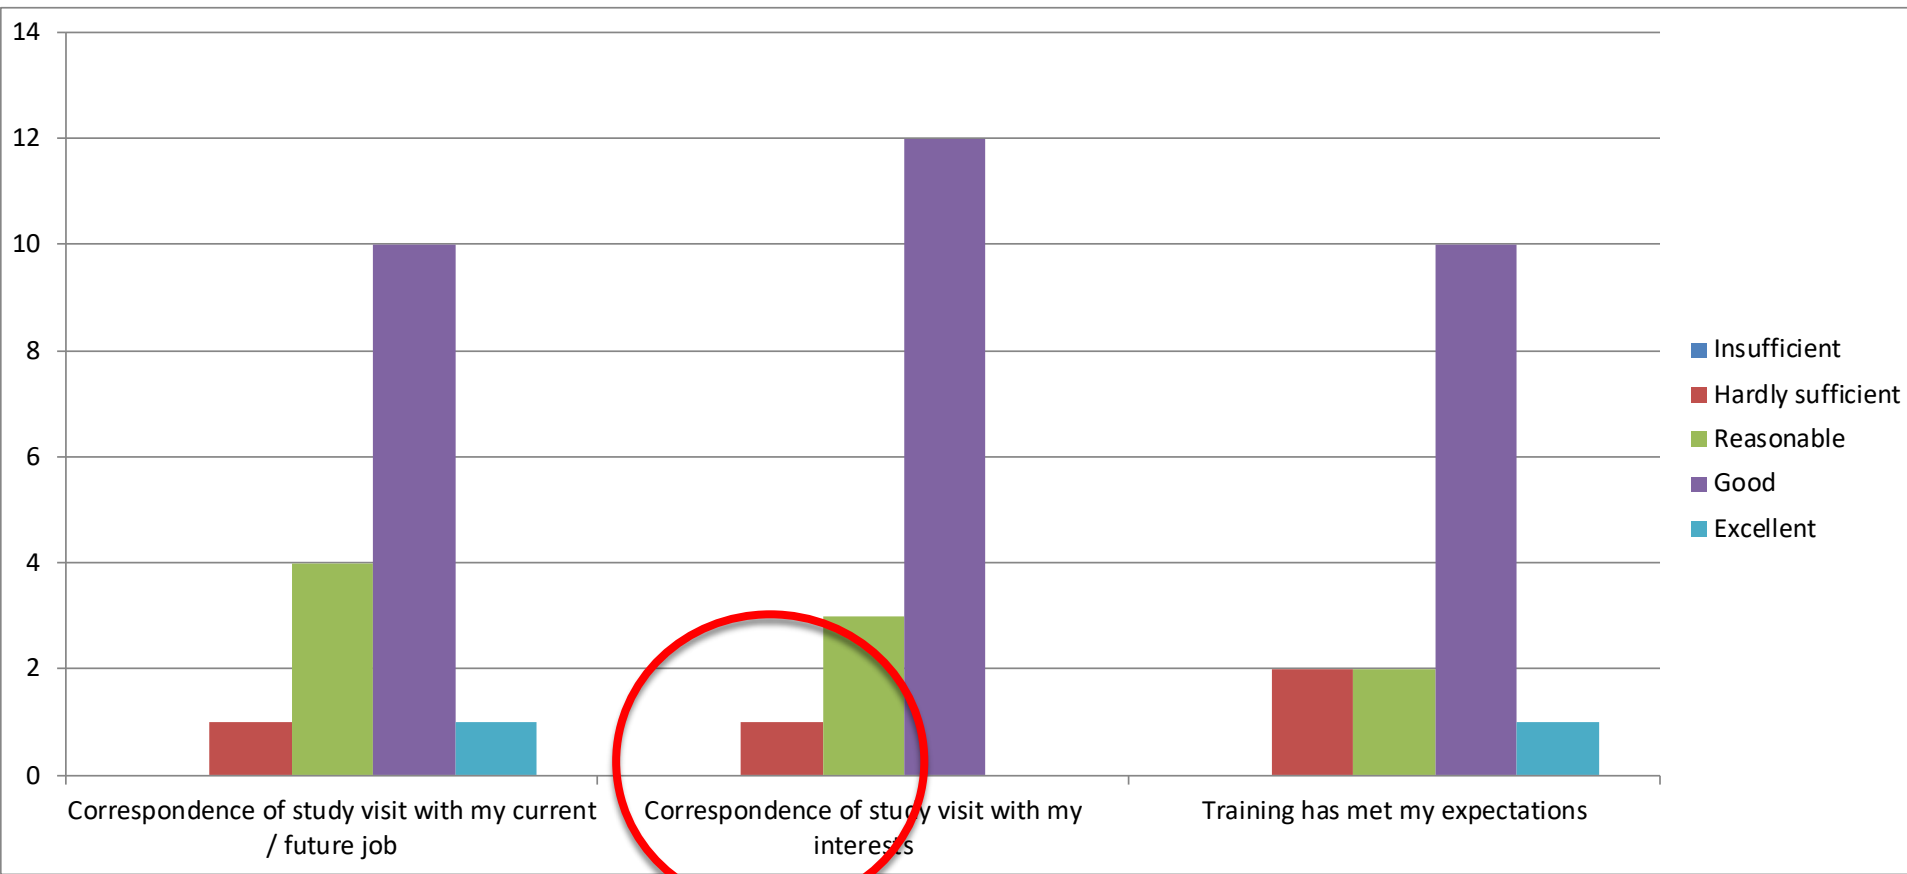

In General Good Results

- The feedback coming from the forms filled in in Bologna shows **a rather good score ...**
- ... with some **criticisms** concerning some organisational issues!

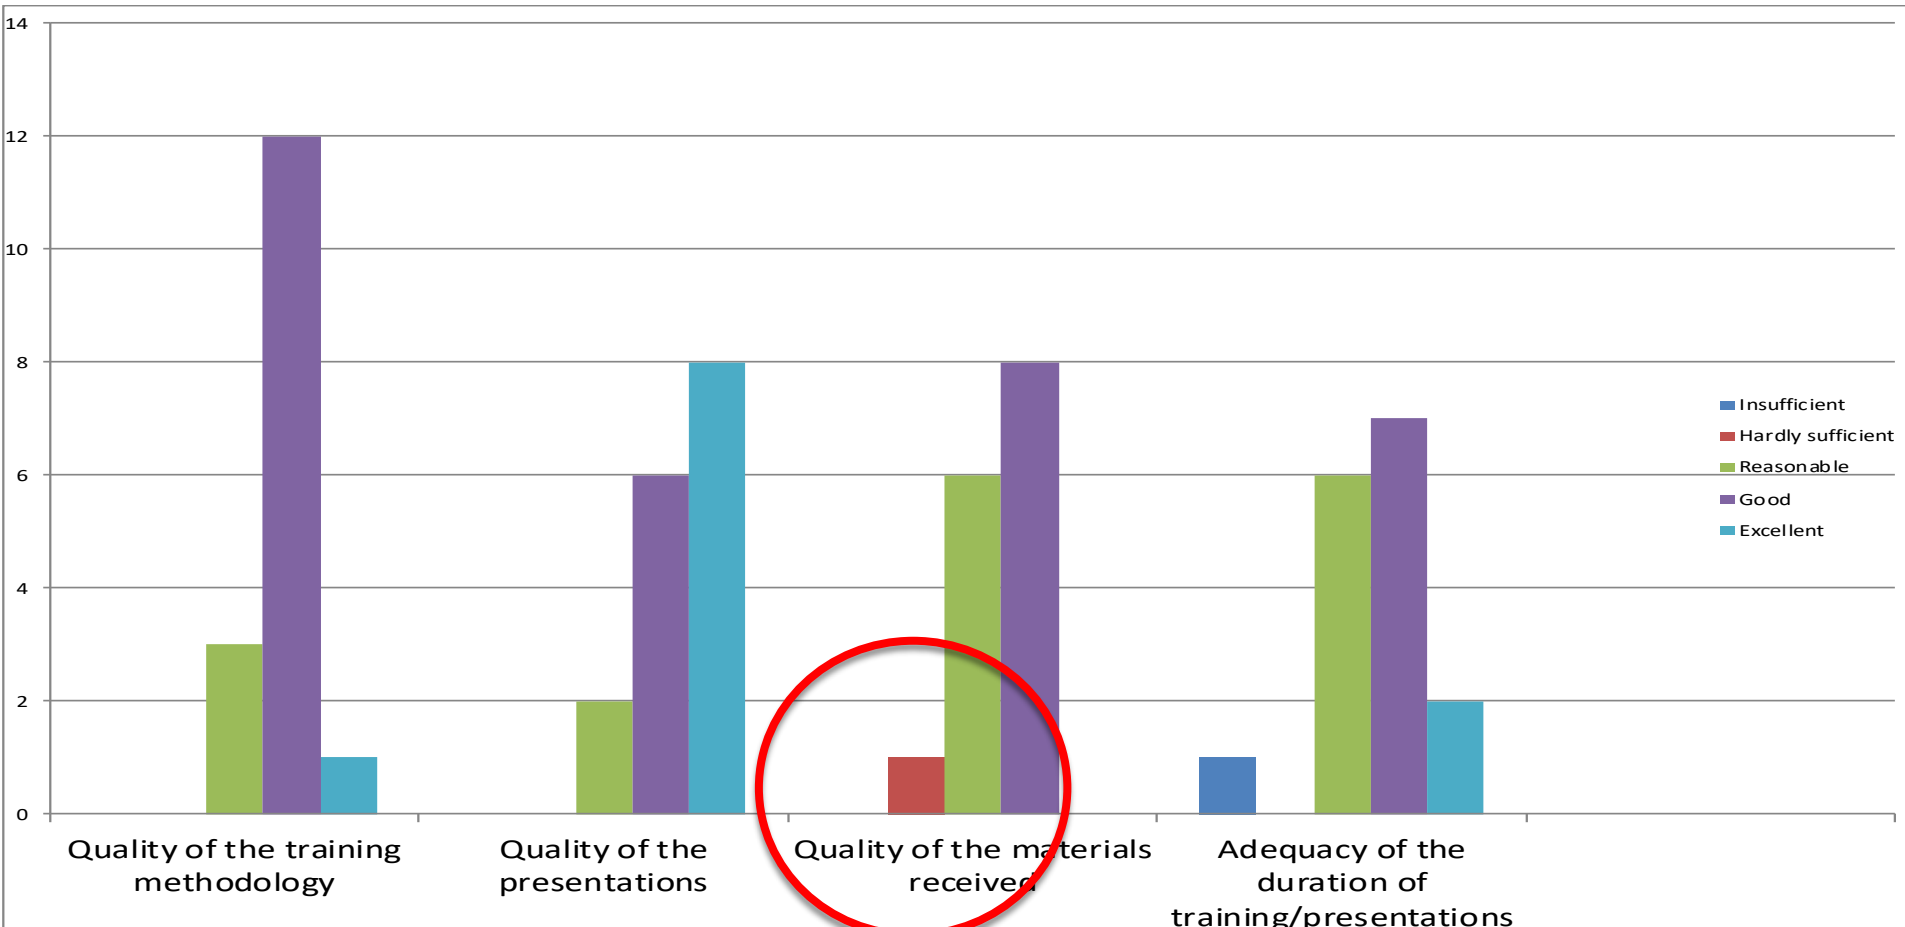

Usefulness for acquiring new skills

□ Rather good, with only one person disappointed!

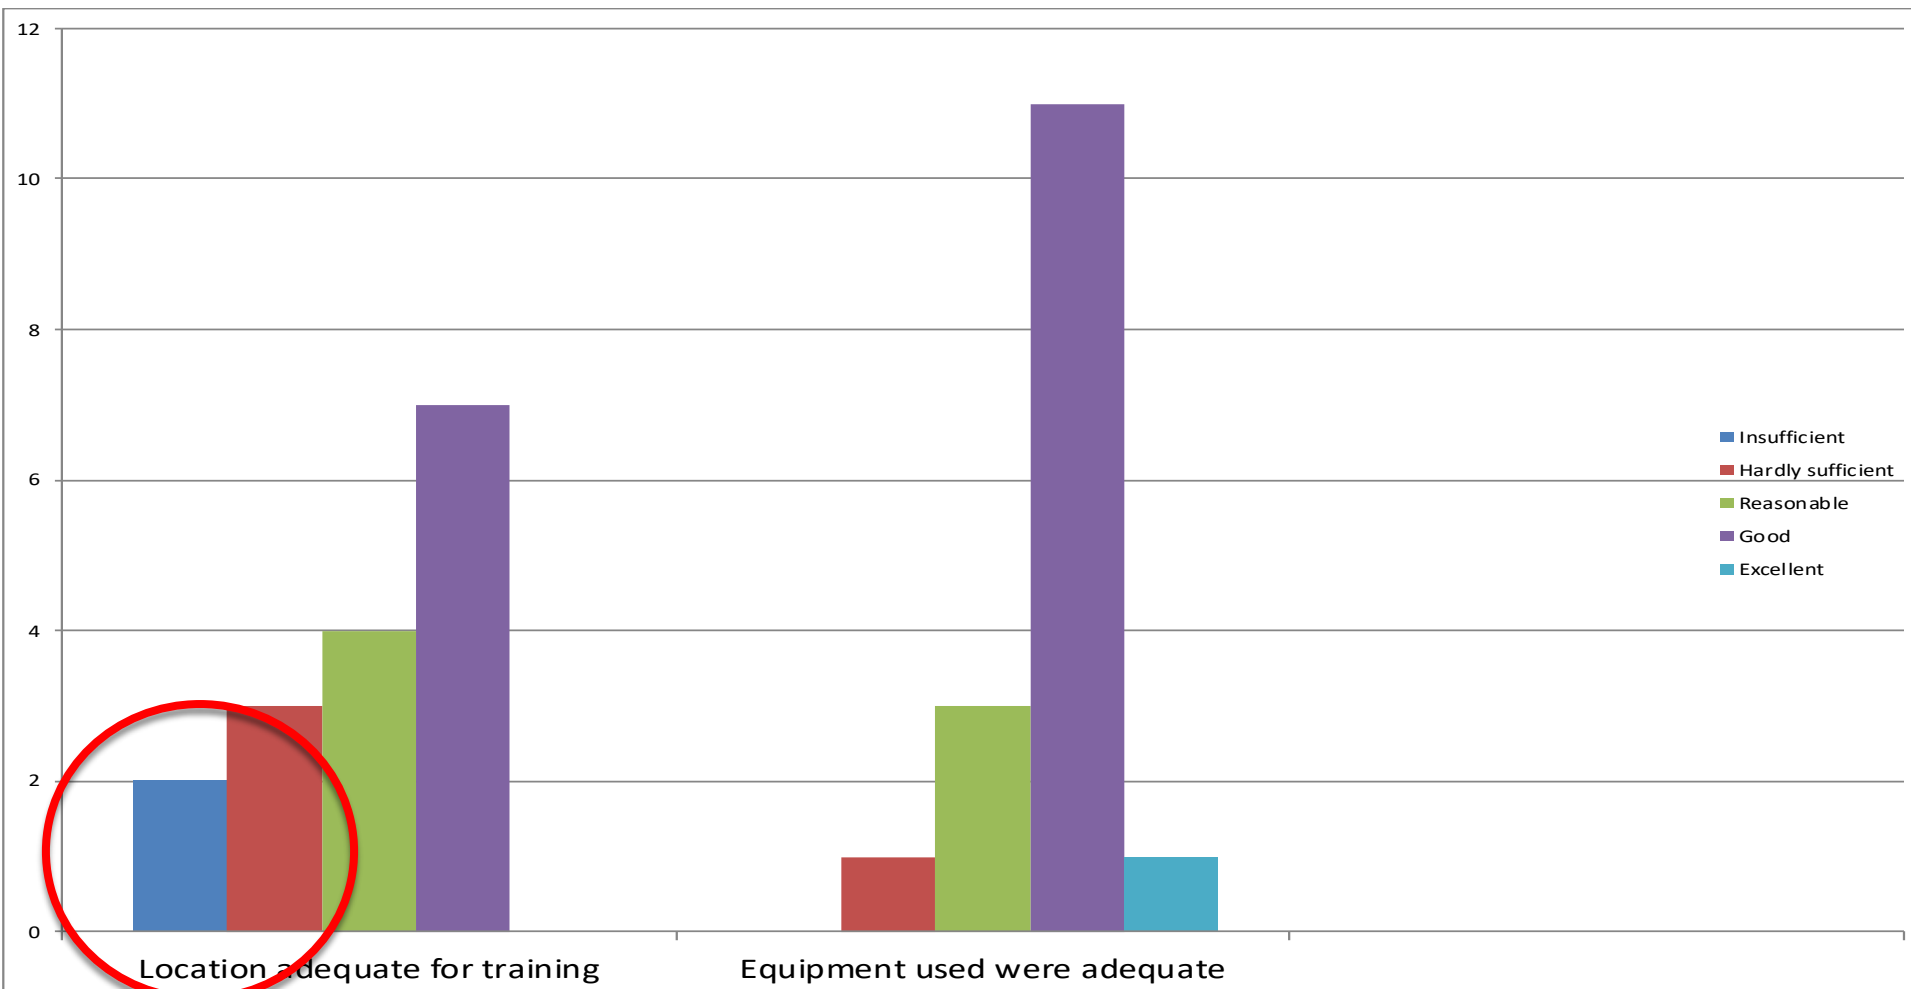

Effectiveness of materials and methods

- Again one person did not like how the visit has been organised!

Organisation of the training event

□ The location of Day 2 was too noisy!!!

Participants' Opinion: The Con's

- ❑ Training room on the second day was too noisy
- ❑ Translate materials from Italian to English
- ❑ Activities should be finished by 5pm
- ❑ Good ideas but bad realization
- ❑ Case Study on second day was too long, and not clearly related with Urban Agriculture

Participants' Opinion: The Con's

- Meeting locations were hard to be found
- It was unpolite to force people pay for expensive lunches
- Hosting university should not ask participants pay for visiting the selected locations
- Not clear how we can adopt these modules in BiH

Suggestions for doing it better

- Improve quality of organisation
- Spent more time for organising better the visits
- Participants should be selected according to the planned topics for lectures

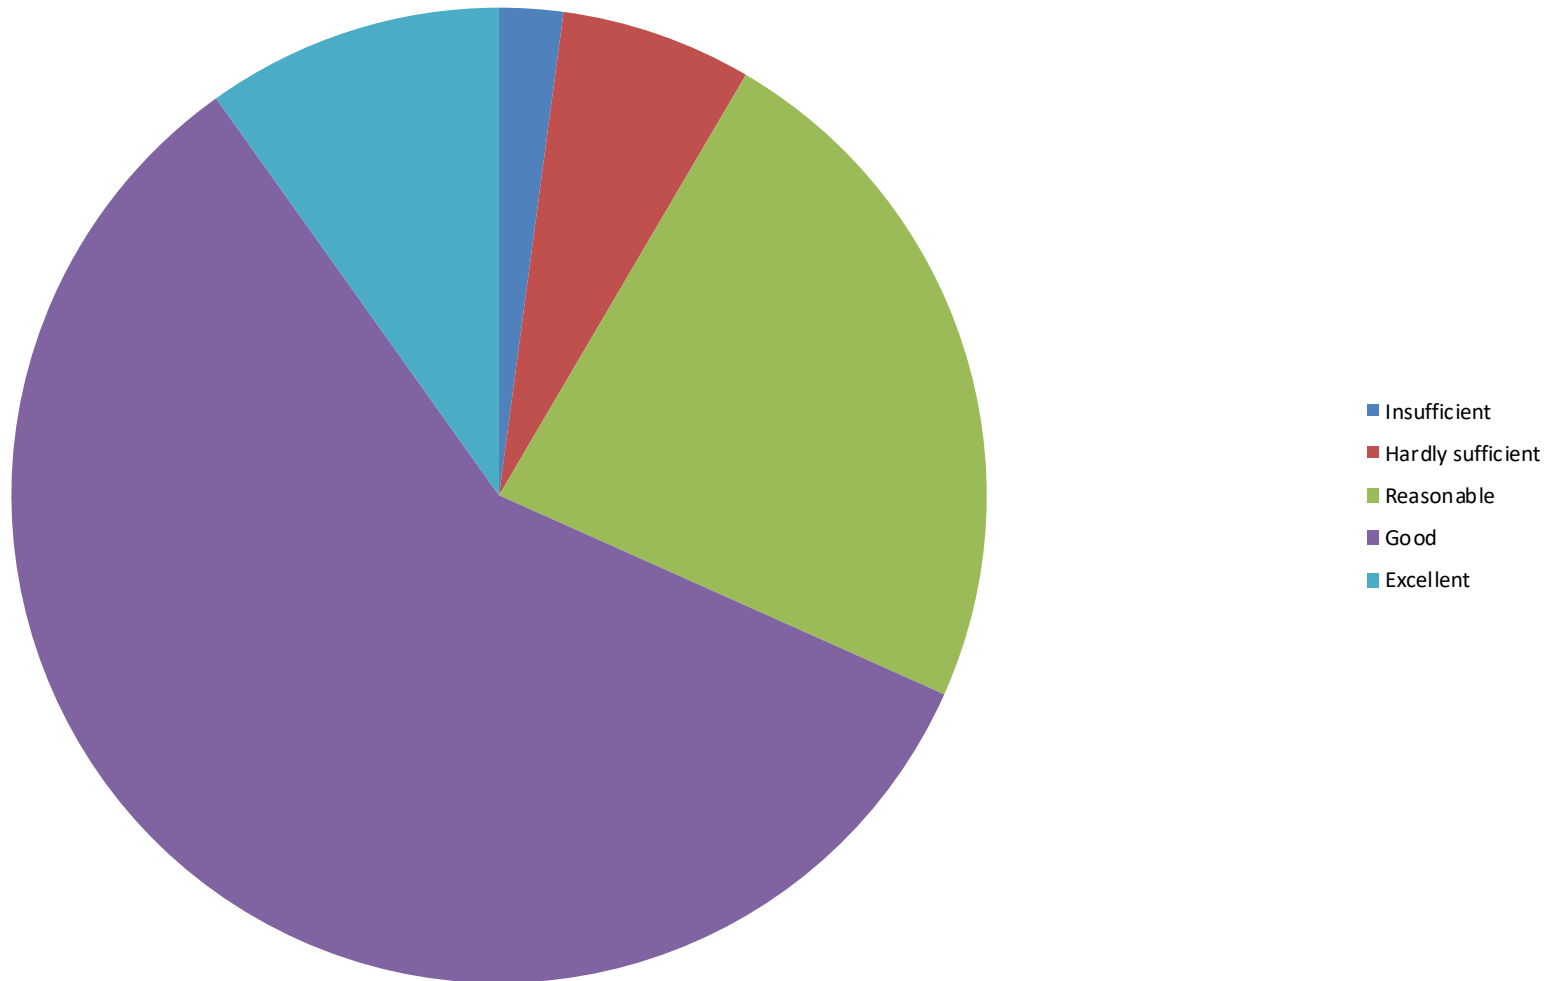

Overall Evaluation in Bologna

Only 9%
