Satisfaction with decisions taken	-	-	-	3	4
Level of involvement & cooperation among partners during the meeting	-	-	-	1	6

What do you expect will be the main benefits for your organisation in taking part in this project? Please shortly explain

Collaboration with new partners, implementation of knowledge about Balkans reality, new synergies for future projects

This project is okay for our University; Sincere cooperation with partners

Development of a new curriculum, training of the academic staff, student's mobility.

Internationalization of teaching modules, stronger cooperations with Western Balkan states, finding Partners for Research Projects (H2020, etc.)

The main benefits will be established cooperation and transfer of knowledge and good practice between partner institutions

The main benefits for our University will be learning in order to obtain a qualification which will enable our staff and students to identify global challenges, needs, required skills and competences and to access the labour market or to obtain new skills for current or future job opportunities. From this partnership we expect to find and explore new methods for teaching, to engage with the education system and best utilize tools such as mobility and team work, exploring the use of creative ways to use our potential and design and implement different study programs.

Knowledge transfer, new collaborations, new research areas ; Institutional development; Networking; Know how transfer

## COMMENTS AND SUGGESTIONS

Every thing is fine  
The relationship between the partners is good

Thanks

We need to improve day-to-day communication and remained each other on deadlines and obligation, have open discussions to prevent problems and motivate each other to deliver good results

## CONCLUSIONS
