1.) Introduction WP 1 „Needs Analysis“: General description and objectives

WP 1 „Needs Analysis“ aims to deliver important information to design new curricula and lifelong learning (LLL) modules based on existing and new data from both, WB and EU. Additionally, it aims to provide an appropriate infrastructure for teachers' training on urban agriculture within Bosnia and Herzegovina, Montenegro, and Kosovo. In terms of education resources WP 1 defines skills and competences required to design teaching and learning environments supporting urban agriculture entrepreneurship. Thus, WP 1 is an essential requirement for BUGI's downstream WPs. Within WP 1 data collection embraces different levels in terms of materials and methods to define knowledge, skills, and competences needed for (new) entrepreneurship in urban agriculture. In Deliverable 1.7 HEIs infrastructure of Western Balkan universities participating in BUGI project is analysed.

2.) Partners HEIs infrastructure and teacher's assessments

The following tables show overviews of the Western Balkan partner universities' human resources (Chapter A) and infrastructure resources (Chapter B). For each of the five Western Balkan Universities the Faculties participating in the BUGI project are being considered; these are:

- UNSA: University of Sarajevo, Faculty of Agriculture
- UNMO: Dzemal Bijedic University of Mostar, Agromediterranean Faculty
- UDG: University of Donja Gorica, Faculty of Food Technology, Food Safety and Ecology
- UHZ: University of Haxhi Zeka in Peja, Faculty of Agribusiness
- UP: University of Prishtina, Faculty of Agriculture and Veterinary
